COMMON SENSE: These questions are obviously not real. Don't take any of them seriously. And everyone should know that trying to do or act out any of the questions on the "**WOULD YOU RATHER**" Cards would be really dumb and might cause you to get hurt or sick. **DON'T DO ANY OF THEM!** The questions are fun to talk about, but dumb to do.

RULES OF PLAY

START OF PLAY

- Each player draws one Question Card.
- Look at the word(s) inside the **box**.
- The player whose word(s) has/have the fewest letters goes first.

GAME PLAY

- Read a "Would You Rather" question out loud to the group.
- Secretly make your choice by hiding the appropriate Choice Chip inside your closed fist ... Blue "#1" chip for Choice #1 and Red "#2" chip for Choice #2.
- One at a time ... each player then guesses what you chose.
- After all players have made their prediction, you (The Reader) reveal your choice by showing the chip in your hand.
- Each player who guesses correctly is awarded a "Would You Rather" Question Card from the deck.
- Play moves left and the next player becomes The Reader.

NOTE: On your turn, always read a question from one of your cards.

WINNING THE GAME

You win after you successfully collect 5 "Would You Rather" Question Cards.
